Our Intention: To effectively train our students by teaching a fun, engaging, informative CPR class, based on a non-technical, user-friendly method” heart to heart.” As many have said, “the best CPR class they’ve ever had.”

Dear Instructor Applicants to John Tyler and Associates CPR,

Thank you for your interest in working with us. If you're relatively new to instructing, know that if selected to be on staff with us, we will mentor you with at least two veteran instructors to show you the ropes of our unique style in teaching. Having an AHA or Red Cross instructor card is just the boot camp foundation for us. From there we construct a “custom home” of beautiful proportions as you learn our method of teaching, and also add your own style. The key I've found is knowing your material and then speaking and listening from the heart.....The heart, the head, the hands.

Our company has been the cream of the crop in on-site CPR training in Los Angeles since 1991, San Jose since 1995, and Hawai'i since 2002. I hire the best and I pay the best of any CPR training company: base pay of \$150 for up to 3 hours, \$50/hr thereafter for lead instructors; \$40 per hour to co-instruct, and \$25/hr to be an assistant instructor for our trainings. I intend to have a small, responsive staff, working part-time to your schedule. Most classes are evening trainings, usually around 6pm to 930pm, but some are daytime, and Saturdays. Accept only the trainings that work for you. Being your own boss (an independent contractor in tax terms), you can deduct all business expenses you have as a result of working with us (gas, mileage, a portion of your car insurance, car payments, car maintenance, etc.) on a “Schedule C” for taxes, yay! Notice too that I say “working with us” not “working for us” there's a subtle but true difference in our attitude with our staff.

I look forward to your application,

John Tyler

What is your **intention** in being an instructor with us?

What do you enjoy most about teaching/training adults?

What was **the best** day at a work assignment (not necessarily CPR training related) you've had in the last several months? What were you doing?

Why did you enjoy it so much?

What was your **worst** day at a work assignment? What were you doing?

Why did it grate on you so much?

How do you best like to learn new skills? Order these 1, 2, 3 to your preference:

___ **Analyzing:** "Give me detailed info on a subject, let me study, note take, and practice."

___ **Doing:** Put me in a new situation, and with my experience, I wing it and learn best in action.

___ **Watching:** Let me ride shotgun with a more experienced guard, and I'll pick it up best.

(No "right" answers above, I'm just looking to understand your style and bring forth your best.)

TRANSPORTATION

Do you have your own reliable car? If not, what is your mode of transportation?
